# GeNetix

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:

This device may not cause harmful interference; and

This device must accept any interference received, including interference that may cause undesired operation.

For more information: <https://www.chamsyslighting.com/pages/fcc-notice>

ChamSys products must be disposed of in accordance with the WEEE disposal and recycling regulations ([http://ec.europa.eu/environment/waste/weee/index\\_en.htm](http://ec.europa.eu/environment/waste/weee/index_en.htm))

WEEE Producer registration number WEE/FF5605UX.

SERIAL NUMBER

# GN2

QUICK START

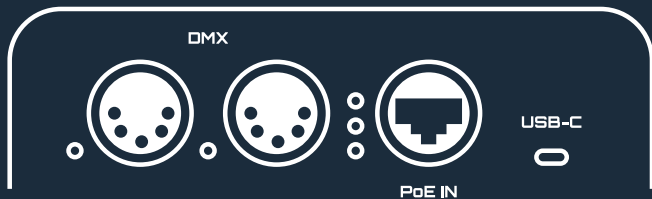

# 1 POWER

## POWER VIA USB-C

Connect the USB-C cable from the GeNetix GN2 into the USB-A port on your PC or ChamSys console.

## POWER VIA PoE

Connect an Ethernet cable from the power over Ethernet source into the rear network port labelled "PoE IN".

## NOTE

Host data can only be received over the USB-C connection **or** the network connection.  
A combination of the two can not be performed to receive data.

# 2 UPDATE

## FIRMWARE VERSION

This product might be using out of date firmware. Check the latest released version via the online GeNetix documentation.
